SUMMARY

Computer Engineering student specializing in Artificial Intelligence and Data Science with a strong foundation in Python, Java, Data Structures & Algorithms, Object-Oriented Programming, and SQL. Experienced in developing software applications and academic projects involving problem-solving, database management, and application development. Skilled in writing efficient code, debugging, and implementing solutions to real-world problems. Seeking a Software Developer opportunity to apply programming skills and contribute to building reliable and scalable software solutions.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++, SQL
- **Web Technologies:** HTML, CSS
- **Core Computer Science:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
- **Databases:** PostgreSQL, MySQL
- **Tools & Platforms:** VS Code, GitHub, Jupyter Notebook, Google Colab

EDUCATION

Pillai College of Engineering — B.Tech, Computer Engineering (AI & Data Science) 2025 – 2026
SGPA: 9.32/ 10

Rajgad Dnyanpeeth Technical Campus — Diploma in Computer Engineering 2023 – 2024
92.12%

Jijamata English Medium School, Bhor — SSC (10th) 2021
84.80%

PROJECTS

1. AIoT-Based Smart Electric Pole Safety for Leakage Detection and Life Protection (Working 2026-27)

- Developed an AIoT-based safety system for leakage detection, human and animal detection, hazard alerts, and a website and mobile app for fault reporting and safety monitoring. **(Copyright Work)**

2. Weather Monitoring System June 2026 **| Tinkercad**

- Developed an IoT-based weather monitoring system using sensors to monitor environmental conditions and display readings.

3. Smart Building Occupancy Monitoring June 2026 **| Tinkercad**

- Designed a smart building occupancy monitoring system to track room occupancy using sensors and simulate real-time monitoring.

4. Email Assistant for Visually Impaired Users with ML/NLP Spam Filtering Oct 2025 **(Deploy Link - GitHub Link)**

- Built a spam vs. non-spam email classifier using Machine Learning and NLP text-processing techniques, integrated with speech-to-text and text-to-speech for accessible, voice-based email use.

5. Online Stationary Store March 2025 **(Deploy Link - Github Link)**

- Developed an Online Stationery Store website with product listings and a user-friendly interface for browsing stationery items.

6. Crop Protection Against Wild Animals and Alert System using Deep Learning Alert System Mar 2024 **(Github Link)**

- Built a deep-learning system that detects wild animals from camera input and sends the farmer a real-time alert with the animal's image and location; a deterrent mechanism is triggered on detection.
- Published as a research paper: "Crop Protection Against Wild Animal and Alert System Using Deep Learning," IJSREM Journal, Vol. 8, Issue 3, March 2024.

7. Blood Donation Management System June 2023 **(Github Link)**

- Developed a Blood Donation Management System to manage donor information and simplify blood donor search and availability tracking.

INTERNSHIP EXPERIENCE

Smart ED Innovations — AI/ML Technical Intern Jul 2025 – Oct 2025 **(Certificate)**

- Gained hands-on exposure to applied AI/ML concepts and project work during industrial training.

Innovatus Technologies — Technical Intern Jun 2023 – Jul 2023 **(Certificate)**

- Gained practical exposure to software development and technology-based project work.

RESEARCH & ACHIEVEMENTS

- **Copyright:** AIoT-Based Smart Electric Pole Safety for Leakage Detection and Life Protection (Working 2026-27) **(Certificate)**
- **Published Research Paper:** "Crop Protection Against Wild Animal and Alert System Using Deep Learning," IJSREM Journal, March 2024. **(Link) (Certificate)**
- **Third Prize, TECHNOVISION 2K24 Project Competition** — SVPM's Institute of Technology & Engineering, Malegaon (Feb 2024) **(Linkedin Post)**
- **Runner-Up, KURUKSHETRA Paper Presentation** — College of Engineering, Phaltan (Mar 2024) **(Linkedin Post)**

CERTIFICATIONS & WORKSHOPS

- Advanced IoT with Data Analytics for Smart Cities(2026) **(Certificate)**
- Vertex Innovate 2025 **(Certificate)**
- AI & Machine Learning Workshop (Jan 2024) **(Certificate)**
- Cloud Computing Workshop (Feb 2024) **(Certificate)**
